

## WHEEL SYSTEM and NATIONAL LEGISLATION

As anticipated in the last 2 issues of Percia's News, we are going to describe the second branch of the Wheel System and Type Approval: "Special" Wheel System with different dimension of that one of the Car Manufacturer.

Which are its advantages?

- Normally can be approved also wheel sizes which are not included in the registration certificate of the vehicle and without the authorization of the manufacturer. The tests supported by the wheel manufacturer can be used as an alternative of this document.

- All the wheel system details (including specification of the tire, screws / nuts and accessories) must be approved.

- Drive tests are necessary .

- The approval is valid only within the territory of the Member State from which it is released (except for Austria which accepts KBA documents).

How can a customer extend the registration certificate?

1. the customer purchases an approved wheel.
2. an authorized installer will install the wheel and gives a declaration to the customer, if necessary.
3. the technical verification is required, following the instructions of each Ministry of Transport.

Fondmetal is in close contact with the Italian Ministry of Transport.

## DESENZANO DEL GARDA

Desenzano del Garda is situated in the south-west part of the lake and is the biggest town of Garda Lake. It is in the centre of a gulf: from its excellent geographical location you can admire the full dimension of the lake.

The climate is mild, with pleasant temperatures and a Mediterranean vegetation with palms, laurels and oleander.

The origins of Desenzano are from the Bronze age. In the First and Second Centuries it became the residence of many wealthy Romans.

Nowadays Desenzano is a very popular holiday destination because of its beautiful promenade, the impressive venetian-style buildings and its scenic, cultural and architectonic treasures.

When you come in Desenzano, you must see the medieval castle with its small pinnacle towers, the archaeological museum and the remains of a roman villa with floor mosaics.

During the summer you can relax and sunbathe in one of the parks of Desenzano or on its beautiful beaches.

## AN OFFER YOU CANNOT REFUSE

### WHEEL + TPMS

Dear Customers, the winter 2014 is just round the corner and you have already placed your winter order or you are going to confirm it shortly.

This year you need TPMS to make your winter kits in accordance to the new European law:

What about ordering also the original TPMS from us?

Ask for your offer of Wheels complete of TPMS now! and get rid of every problem using a single supplier.

ATTENTION!

The European production of TPMS will not be enough for the whole market request this year.
